

Event 2022

GWV De Vrijbouter, Loosdrecht NL

On October 15th and 16th, the RS Aero Dutch class organization will be organizing a fun Aero event to promote the class at beautiful Loosdrecht waters.

Training

Saturday October 15th will be a training day with experienced coaches. Open to both existing Aero sailors and sailors that want to get to know the boat. As we expect a rather large number of participants, we will be able to arrange training at personal level and relevant to sailing ability per sailor. We are working on providing some Aero's, so that newbie's will also be able to sail this nice and fast boat.

After the training on there is a delicious meal in the cozy Vrijbouter clubhouse.

Racing

Following the successful competition during last year's event, we are organizing a number of short races on Sunday October 16th. Who will succeed Saskia Arnold, Vrijbouter Aero champion 2021? The races are sailed with the own choice of rig size and results are calculated with sail handicap.

Registration

Registration will be opened soon on www.rsaero.nl.

We are looking forward to a nice sailing weekend.
